a Percentage without its experiment

88%

“It works!”

Missing: denominator, failures,
success rule and simulation scope.
This is an intentionally incomplete caption.

b Evidence with an interpretable caption

88/100 first targets reached

12 timeouts; 0 falls. Native MuJoCo 3.6.0,
original observation noise; seeds 20000–20099.
First goal below 0.1 rad before fall or 50 s.
All 100 trial outcomes are retained.

Supports this simulated first-goal protocol.
Physical-hand reliability remains untested.
