01 / Claim

What capability are we testing, under which conditions?

Mode: Source analysis / Project development Claim: _____ Source/configuration freeze: _____ Date: _____

Our [system] will [perform a capability] in [conditions], evaluated using [measure and criterion] against [comparison].

1. System and capability

Name your system, tested capability and physical mechanism. Separate your proposed claim from published results.

2. Conditions and boundary

State task, configuration, conditions and exclusions. Use Project development for your own final project.

3. Measure and comparison

Define measure, units, trial unit, criterion and comparator before evaluation. Label proposed versus observed values.

4. Purpose and next test

Select one feasible pilot and check resources/access. State what outcome would challenge the claim; results may be pending.

Review: Could your system work as shown while your claim is still false? Write one such outcome.
